

Our Guarantee

If you are not satisfied with your boot camp training, you will receive a full refund of tuition, no questions asked.

Pre-Requisites

The Boot Camp is designed for I.T. Professionals with at least one year of experience implementing and administering network operating systems and desktop operating systems. While not required, if you have any of the following certifications, you are most likely ready to take the MCSE on Win Server 2003 Boot Camp: MCSE 4.0, Network + or CCNA® Certification. To qualify for the boot camp, you are required to take a 25 question, 50-minute online skills assessment test. To take the test, click here to pre-register. If you have already pre-registered, click here to take the test. Click here to read what others say about the pre-assessment exam.

Student Materials

You will receive fully customized Microsoft Authorized Courseware (not Microsoft Press self-study books, but the official classroom courseware direct from Microsoft) kits. This custom kit, together with the transcenders, comprehensively covers the seven tests listed below. Microsoft official courseware is the definitive source for Windows Server 2003 learning. This a \$1400 value!!

In addition, boot camp students get physical copies of Transcender tests for all the exams. Transcender is the undisputed leader in the test preparation software market. That's a \$700 value!!

Vouchers and Exams

You will be allowed to take up to 9 tests which means that you have the possibility of missing up to two tests without having to pay more. No additional payment is necessary for the vouchers. The vouchers must be used during the MCSE boot camp itself and will expire at the end of the boot camp. Having the extra vouchers at no cost can make all the difference. It makes you more confident and aggressive in test-taking because you are not losing money if you don't get through on your first attempt.

The Boot Camp will prepare you for the following exams:

70-290 Managing and Maintaining a 2003 Environment

70-291 Implementing, Managing, and Maintaining a 2003 Network Infrastructure

70-293 Planning and Maintaining a 2003 Network Infrastructure

70-294 Planning, Imp., and Maint. a 2003 Active Directory Infrastructure

70-297 Designing a 2003 Active Directory and Network Infrastructure

70-270 Installing, Configuring, and Administering XP Pro

70-227 Internet Security and Acceleration (ISA) Server 2000, Enterprise Ed.

- [Or CompTIA Security+](#)

All Exams are delivered at our campus at times convenient to the candidates, including Sundays. Our testing center is an authorized VUE & Prometric Testing Center. We will provide a large number of testing stations dedicated to the boot camp. A test administrator will be available throughout the day, and in the evening, to register you for the tests.

Boot camp highlights

- All books are Microsoft Official Courseware (MOC) from Microsoft, designed for classroom training at Microsoft Authorized Learning partners only, with hundreds of hands-on labs. Note that this is very, very different from Microsoft Press books which are designed for self-study (not classroom training). Some boot camp vendors who use Microsoft Press books mislead students by calling them 'Microsoft official courseware'.
- High-speed wireless access for your laptops and dedicated study rooms with full Internet Access for your convenience.
- 168 hours of hands-on instructor led training by the best in the industry. 12+ hours per day of instruction from two experienced MCT instructors!! For complete details of the topics covered.
- Up to 9 Microsoft test vouchers available for use during the boot camp at NO extra cost!
- Official copies of Transcender sample tests (the world's best and most expensive test-prep software) for 7 tests!
- Single-occupancy room stay at a local hotel or equivalent for 14 nights.
 - Even if you are from Atlanta, you might want to stay away from family during this time for maximum attention to this important project
- Fresh catered meals - breakfast (with hotel package), and all lunches, all dinners, snacks included on all 14 days.
- Comprehensive Skills assessment - No beginners slowing everyone down. We use a qualifying test (online) to make sure beginners do not get into this program.
- All 7 MCSE and MCSA tests covered! (our boot camps are geared towards NT4 MCSEs and MCSAs OR individuals with 6+ months of systems administration experience OR 18 months of Help Desk experience).
- All tests are taken at the school campus with dedicated testing stations for students.
